ABSTRACT

This report portrays the nature, volume, and extent of crime occurring on the campuses and housing at approximately 65 institutions of higher education in Tennessee from August to December 1989. Following an introduction, a sample reporting form is provided, along with information on classification of offenses and calculation of crime rates. Individual summary reports for each institution follow. Each report reflects campus population data, summarizes the information provided on monthly report forms, and calculates a crime rate and a clearance rate for each offense. Offenses covered include homicide, manslaughter, rape, robbery, assault, burglary, larceny, vehicle theft, arson, forgery, fraud, embezzlement, stolen property, vandalism, illegal use/possession of weapons, prostitution, sex offenses, drug sale/manufacture or possession, gambling, family offenses, driving under the influence of alcohol or drugs, liquor law violations, drunkenness, disorderly conduct, vagrancy, and all other offenses. This annual report portrays the nature, volume and extent of crime occurring on the campuses and housing of all institutions of higher education in the State during the months of August through December 1989. All statistics presented in this publication have been accumulated and tabulated from reports submitted by each institution participating in the statewide reporting project.

The report will hopefully assist law enforcement officers, institution administrations, and government officials in adjusting their efforts in the fight against crimes which occur on the Tennessee campuses of higher education. We hope that it will also create an awareness within the general public that crime does exist as a problem within our communities and requires attention from every segment of society. Criminal activity cannot be eliminated by law enforcement agencies acting alone; it requires the concerted efforts of every law abiding citizen as well.

While criminal offenses, and related clearances, relative to individual institutions are reported in the enclosed report, these listings are not intended to show who investigates and/or clears each individual reported offense. The purpose of these listings is to aid in the determination of those factors which are indicative of the particular crime problems of each institution.

Recognition is given to all individuals in government who have consistently advocated and supported the concept of a unified crime reporting program for the State of Tennessee. I urge our law enforcement, government and courts community to continue to improve the quality and accuracy of offense and arrest information. I also urge our citizenry to continue to cooperate in reporting crimes and in applying effective crime prevention strategies. Together, we can make our institutions of higher education, as well as our State, safe for all Tennesseans. A unified effort to combat crime will give us a competitive edge against criminals and improve the quality of life for all Tennesseans.

Sincerely,

Arzo Carson
Director

I. INTRODUCTION

The Program

The "Crime On Campus" reporting program was established as a result of the "College and University Security Information Act," (Public Chapter No. 317) enacted by the General Assembly of the State of Tennessee, effective July 1, 1989. This act mandates each institution of higher education to report to the Tennessee Bureau of Investigation information concerning statistics relative to crimes occurring on the campus and student housing. The Bureau is mandated to prescribe the reporting form and format for the collection of such data and to publish an annual report of the results of such data submissions from each institution.

The primary objective of the reporting program is to inform the Governor, the State and Local Government Committees, the Education Committees of the Tennessee House of Representatives and Senate, the General Assembly, other governmental officials, and the public as to the nature and extent of crime on the campuses of Tennessee's institutions of higher education. Such a report will also provide law enforcement administrators with criminal statistics for administrative and operational purposes.

In the sections which follow, a sample reporting form is provided, followed by an explanation of each offense category which has been quantified either in Part I or Part II classifications. This report form is the instrument used to report crime statistics, on a monthly basis, to the Bureau. Finally, a report is provided which summarizes the crime statistics which have been reported by each institution. The reporting period for these statistics spans the period August through December, 1989. The final report summarizes the information provided from the monthly report forms for the columns labeled "Actual Offenses," "Offenses Cleared," and "Clearances Involving Only Persons Under 18 Years Of Age." From these data, a crime rate and clearance rate has been calculated for each offense in both Part I and Part II categories. An explanation of the rate calculations is provided in the sections which follow.

This class is limited to "suspicion" arrests where persons arrested are released by the police.

Calculation Of Rates

A. Crime Rate

Campus population data is tabulated, as shown on the individual institution summaries which follow, based on the 1989 Fall term campus population. Such population data takes into account all full time equivalent (FTE) undergraduate and graduate student population, staff personnel, faculty personnel, and security personnel. The rate is calculated per offense category by computing the number of offenses per 1,000 persons included in the campus population, and is computed using the following formula:

$$\text{Crime Rate} = \frac{\text{Offenses Reported}}{\text{Total Campus Population}} \times 1{,}000$$

B. Percent Cleared

The percentage of offenses which were cleared is the ratio of Offenses Cleared to Offenses Reported, expressed as a percentage, and is computed using the following formula:

$$\%\ \text{Cleared} = \frac{\text{Offenses Cleared}}{\text{Offenses Reported}} \times 100$$

II. INSTITUTION SUMMARY REPORTS

Follows are individual summary reports for each institution of higher education which reported the required data to TBI. Each report summarizes data reported for the period August through December, 1989. These final reports reflect the campus population data, based on Fall Term 1989, as well as summarize the information provided from the monthly report forms submitted from each institution for the form columns labeled "Actual Offenses," "Offenses Cleared," and "Clearances Involving Only Persons Under 18 Years Of Age." The cumulative total from the monthly reports was used to calculate a crime rate and clearance rate for each offense in both Part I and Part II categories. Section I provides an explanation of how the rate columns were calculated.
